

KEDRON OWNERS GROUP INC.

Duty of Care

When selecting a camp site, particularly in a remote area, it may be helpful to consider the following:

- ✚ Check your surroundings. Is it safe to stay there?
- ✚ Identify any potential risks and try to eliminate or reduce your exposure to them.
- ✚ Don't park too close to others or block access routes in case of an emergency.
- ✚ Please be considerate of others if you have pets or will be using a generator.
- ✚ Be aware of hazards involved with the use of power cables.
- ✚ Use existing fireplaces and only light fires if you are permitted to do so. Extinguish fires before leaving. Take rubbish with you.
- ✚ Have a bucket of water close at hand in case of fire, know how to use your fire extinguisher, and have an evacuation plan.
- ✚ Know what to do in an emergency. Where can you get assistance? Carry a first aid kit.
- ✚ Get your vehicle, caravan and equipment serviced regularly and understand how they work
- ✚ Remember, safety is everybody's responsibility.

Have a safe journey so you can enjoy the destination
